

Research for People and the Planet

**DIVERSITY FOR SUSTAINABILITY
INTERNSHIP PROGRAM
Inaugural Year: Summer 2011**

APPLICATION PERIOD IS NOW CLOSED FOR SUMMER 2011.

The Pacific Institute in Oakland, California has established the **Diversity for Sustainability Internship Program**. This exciting internship program launched in 2011 is part of the Institute's commitment to furthering diverse perspectives both in our own work and in the critical fields of environmental sustainability and social justice. The program will bring emerging environmental leaders from a variety of backgrounds to contribute to our work under the mentorship of knowledgeable research staff. Interns will develop a deeper understanding of and hands-on experience with fundamental skills for environmental research and outreach and have the opportunity to make connections for their future success.

Who We Are: The Pacific Institute is one of the world's leading independent nonprofits conducting research to create a healthier planet and sustainable communities. Based in Oakland, California, we conduct interdisciplinary research and partner with stakeholders to produce evidence-based solutions that advance environmental protection, economic development, and social equity—in California, nationally, and internationally. We work to change policy and find real-world solutions to problems like water shortages, habitat destruction, global warming, and environmental injustice. Since our founding in 1987, the Pacific Institute has become a locus for independent, innovative thinking that cuts across traditional areas of study, helping us make connections between divergent perspectives and bring diverse stakeholders together. The result is effective, actionable solutions addressing issues in the fields of freshwater resources, climate change, environmental justice, and globalization.

Diversity for Sustainability Internship Program Goals: The goal of the Pacific Institute Diversity for Sustainability Internship Program is to train the next generation of sustainability and environmental and economic justice leaders. The complex environmental challenges facing our society call for innovative and forward-thinking solutions from leaders who bring knowledge and expertise that traverse a wide range of backgrounds and perspectives. The Internship Program seeks to provide each intern with significant and varied experiences to build skills in research, outreach, and leadership; to benefit from a committed mentor; to have the opportunity to network with other professionals in the sustainability field; and to accomplish a specific project(s) that also contributes to his/her resume. Interns will gain experience working in a nonprofit organization, including such tasks as reading and analyzing academic reports and other literature, analyzing data, writing reports and related materials, conducting internet research and field research, assisting in outreach, giving presentations, and connecting with others in the field.

Research for People and the Planet

Details:

- The Diversity for Sustainability Intern will work 20 hours per week for 10 weeks beginning in June 2011 (dates to be confirmed with individual interns).
- Compensation is a stipend of \$2000, valuable nonprofit work experience, professional development and mentorship from skilled researchers, and opportunity for references from a reputable organization.

Types of project work (samples):

- **Vulnerability and Resilience to Local Climate Impacts:** Conduct primary and secondary research to document the presence of factors that could reduce vulnerability to climate change impacts in specific Oakland neighborhoods.
- **U.S. Water Policy:** Develop and present summaries for policymakers and the public from the Institute's new work on U.S. Water Policy.
- **Water Conservation and Efficiency Success Story:** Research and write an agricultural success story, focusing on urban agriculture or other topic.
- **Green Jobs in Agriculture:** Assess potential approaches to job creation for water efficiency in California's agricultural sector.
- **Community Choices Tool:** Evaluate technologies and output web pages that collect existing research for our online decision-making tool for the water, sanitation, and hygiene sector (www.washchoices.org).
- **Evaluate Multiple Use for Water Framework:** Conduct interviews and identify and document case studies of Multiple Water Use (MUS) approaches worldwide, and identify opportunities to make the framework more robust and comprehensive.
- **Water, Sanitation, and Hygiene Mobile App/Texting (WASH SMS Project):** Conduct a landscaping study of projects using texting and mobile phones to improve social and environmental services.
- **Community Access to Green Jobs in Urban Water Projects**
Conduct research to characterize the jobs involved in these urban water projects and the pathways for low-income communities to access and advance in related careers.

Qualifications:

The successful Pacific Institute Diversity for Sustainability Intern Program candidates will:

- Come from groups that are under-represented in the professional environmental field and research sector (for example, but not limited to, people of color; educationally, physically, or economically disadvantaged; women; etc.), and/or with life circumstances, experiences, skills, or talents that will enrich the perspective of the Pacific Institute and in the environmental sustainability and justice fields.
- Demonstrate through coursework or activities their interest and experience in environmental sustainability and/or social and economic justice.

Research for People and the Planet

- Be enrolled in an undergraduate program (especially at a community college or state university), or be a non-student with relevant life experience.
- Have strong writing and computer skills.
- Have a demonstrated ability to work with people from diverse backgrounds.

Application Procedure:

1. Please prepare a letter of interest of no more than two pages detailing:
 - your experience and/or interest in environmental sustainability and justice work;
 - your interest in the work of the Pacific Institute (www.pacinst.org);
 - how you meet the specific qualifications listed in the section above. (If applicable, you may also describe any disadvantages or challenges that you have successfully overcome, including linguistic barriers or a personal or family history of educational or socioeconomic disadvantage.)
2. Resume
3. Name and phone number of two references (non-family members, such as a work supervisor, teacher, or counselor)

NO phone calls please.

The application period for summer of 2011 is now closed. Please check back in January for announcement of dates for the 2012 application period.

The Pacific Institute is an Equal Opportunity Employer.

People from diverse backgrounds of race, color, gender, religion, national origin, income, age, disability, or sexual orientation are strongly encouraged to apply.
